On Heaven and Earth Dec 27 2022 From the man who became Pope Francis, Jorge Mario Bergoglio shares his thoughts on religion, reason, and the challenges the world faces in the 21st century with Abraham Skorka, a rabbi and biophysicist. For years Cardinal Jorge Mario Bergoglio, archbishop of Argentina, and Rabbi Abraham Skorka were tenacious promoters of interreligious dialogues on faith and reason. They both sought to build bridges among Catholicism, Judaism, and the world at large. *On Heaven and Earth*, originally published in Argentina in 2010, brings together a series of these conversations where both men talked about various theological and worldly issues, including God, fundamentalism, atheism, abortion, homosexuality, euthanasia, same-sex marriage, and globalization. From these personal and accessible talks comes a first-hand view of the man who would become pope to 1.2 billion Catholics around the world in March 2013.

Christus Vivit Jun 20 2022 To young Christians of the world, Pope Francis has a message for you: "Christ is alive, and he wants you to be alive!" In his fourth apostolic exhortation, *Christus Vivit*, Pope Francis encapsulates the work of the 2018 synod of bishops on "Young People, The Faith, and Vocational Discernment." Pope Francis has always had a special relationship with young people, and in his fatherly love for you he shows that: You can relate to young people in Scripture who made a difference You identify with the Christ who is always young You face difficult issues in the world today You yearn for the truth of the Gospel You are capable of amazing things when you respond to the Gospel You learn and grow with help from the faithful of all generations You need bold and creative youth ministry You can discover who God made you to be You are urged to pray for discernment *Christus Vivit* is written for and to young people, but Pope Francis also wrote it for the entire Church, because, as he says, reflecting on our young people inspires us all. "May the Holy Spirit urge you on as you run this race. The Church needs your momentum, your intuitions, your faith. We need them! And when you arrive where we have not yet reached, have the patience to wait for us."

Expositions of the Psalms Feb 23 2020 "As the psalms are a microcosm of the Old Testament, so the Expositions of the Psalms can be seen as a microcosm of Augustinian thought. In the Book of Psalms are to be found the history of the people of Israel, the theology and spirituality of the Old Covenant, and a treasury of human experience expressed in prayer and poetry. So too does the work of expounding the psalms recapitulate and focus the experiences of Augustine's personal life, his theological reflections and his pastoral concerns as Bishop of Hippo."--Publisher's website.

How Marriage Became One of the Sacraments Mar 25 2020 An indispensable guide to how marriage acquired the status of a sacrament. This book analyzes in detail how medieval theologians explained the place of matrimony in the church and her law, and how the bitter debates of the sixteenth century elevated the doctrine to a dogma of the Catholic faith.

The Death of Punishment Apr 30 2023 For twelve years Robert Blecker, a criminal law professor, wandered freely inside Lorton Central Prison, armed only with cigarettes and a tape recorder. The Death of Punishment tests legal philosophy against the reality and wisdom of street criminals and their guards. Some killers' poignant circumstances should lead us to mercy; others show clearly why they should die. After thousands of hours over twenty-five years inside maximum security prisons and on death rows in

seven states, the history and philosophy professor exposes the perversity of justice: Inside prison, ironically, it's nobody's job to punish. Thus the worst criminals often live the best lives. The Death of Punishment challenges the reader to refine deeply held beliefs on life and death as punishment that flare up with every news story of a heinous crime. It argues that society must redesign life and death in prison to make the punishment more nearly fit the crime. It closes with the final irony: If we make prison the punishment it should be, we may well abolish the very death penalty justice now requires.

Lumen Fidei Apr 18 2022 Pope Francis offers a profound and compelling reflection on humanity's need for faith in his first encyclical, Lumen Fidei, which completes the work of his predecessor, Pope Benedict XVI. Without the light of faith, he writes, "all other lights begin to dim." Speaking of those today who view faith as a kind of darkness or only to be sought when reason fails, the Holy Father says faith "sees things as Jesus himself sees them." Far from divorcing us from reality, our faith in Jesus "enables us to grasp reality's deepest meaning and to see how much God loves this world." Book jacket.

The Bible and Morality Aug 11 2021 For Christians, Holy Scripture is not only a source of revelation on which to ground one's faith, it is also an indispensable reference point for morality. They are convinced that in the Bible they can find indications and norms of right behaviour to attain fullness of life. This use of Scripture is not of course without its problems caused by the different times and circumstances in which people find themselves today compared with biblical times. In 2002, the Pontifical Biblical Commission, at the behest of the then-President Cardinal Joseph Ratzinger, set about to examine the problem of the relationship between the Bible and morality by posing itself the question: what is the value and the significance of the inspired text for today's morality? This document seeks then to explain the context for norms of morality encountered in Scripture, and shows also that, while there remain moral questions which cannot be fully answered from Scripture, nevertheless Scripture does offer criteria which are helpful in finding solutions.

The Dictator Pope Nov 25 2022 Marcantonio Colonna's The Dictator Pope has rocked Rome and the entire Catholic Church with its portrait of an authoritarian, manipulative, and politically partisan pontiff. Occupying a privileged perch in Rome during the tumultuous first years of Francis's pontificate, Colonna was privy to the shock, dismay, and even panic that the reckless new pope engendered in the Church's most loyal and judicious leaders. The Dictator Pope discloses that Father Mario Bergoglio (the future Pope Francis) was so unsuited for ecclesiastical leadership that the head of his own Jesuit order tried to prevent his appointment as a bishop in Argentina. Behind the benign smile of the "people's pope" Colonna reveals a ruthless autocrat aggressively asserting the powers of the papacy in pursuit of a radical agenda.

The OECD Multilateral Instrument for Tax Treaties May 20 2022 The Multilateral Instrument (MLI) proposed in OECD BEPS Action 15 will lead to the modification of numerous tax treaties. As tax treaties can have different wording, terminology and structure, a great challenge is to find a proper way to accomplish their modification without distorting the underlying framework or triggering undesirable effects. This book analyses the MLI, which was signed by over seventy jurisdictions on 7 June 2017. The topics covered include: • the procedural mechanisms on how the new measures to prevent base erosion and profit shifting (BEPS) will interact with and complement existing tax treaties; • the scope of the MLI in order to ascertain which tax treaties and taxes are covered; • the interpretation of terms used in the MLI and the relationship between the languages used in the MLI and in the particular tax treaties; • the implementation of the minimum standard through the MLI, as well as how states can exercise various options offered by the MLI and reserve the right not to apply certain provisions of the MLI; • the legal consequences of the exercise of options and reservations for the other states; •

the notification procedure through which states declare their choices; and • the possibilities and procedure for withdrawal from the obligations entered into upon signing the MLI. Finally, the book discusses whether the mechanism of the MLI can serve as a role model for future changes to the OECD Model Convention. The book incorporates the analyses of leading scholars and practitioners dealing with international tax matters. Critical insights are offered for academics, practitioners, tax officials and judges who deal with or are interested in the field of international taxation.

Pergamon and the Hellenistic Kingdoms of the Ancient World Aug 23 2022 The Hellenistic period—the nearly three centuries between the death of Alexander the Great, in 323 B.C., and the suicide of the Egyptian queen Kleopatra VII (the famous "Cleopatra"), in 30 B.C.—is one of the most complex and exciting epochs of ancient Greek art. The unprecedented geographic sweep of Alexander's conquests changed the face of the ancient world forever, forging diverse cultural connections and exposing Greek artists to a host of new influences and artistic styles. This beautifully illustrated volume examines the rich diversity of art forms that arose through the patronage of the royal courts of the Hellenistic kingdoms, placing special emphasis on Pergamon, capital of the Attalid dynasty, which ruled over large parts of Asia Minor. With its long history of German-led excavations, Pergamon provides a superb paradigm of a Hellenistic capital, appointed with important civic institutions—a great library, theater, gymnasium, temples, and healing center—that we recognize today as central features of modern urban life. The military triumphs of Alexander and his successors led to the expansion of Greek culture out from the traditional Greek heartland to the Indus River Valley in the east and as far west as the Strait of Gibraltar. These newly established Hellenistic kingdoms concentrated wealth and power, resulting in an unparalleled burst of creativity in all the arts, from architecture and sculpture to seal engraving and glass production. Pergamon and the Hellenistic Kingdoms of the Ancient World brings together the insights of a team of internationally renowned scholars, who reveal how the art of Classical Greece was transformed during this period, melding with predominantly Eastern cultural traditions to yield new standards and conventions in taste and style.

The Cambridge Companion to Hans Urs Von Balthasar Nov 13 2021 Publisher's description: Hans Urs von Balthasar (1905-1988) is one of the most prolific, creative and wide-ranging theologians of the twentieth century who is just now coming to prominence. But because of his own daring speculations about the meaning of Christ's descent into hell after the crucifixion, about the uniqueness of Christ as savior of a pluralistic world, and because he draws so many of his resources for his theology from literature, drama, and philosophy, Balthasar has never been an easily-categorized theologian. He is neither liberal nor conservative, neither Thomist nor modernist and he seems to elude all attempts to capture the exact way he creatively reinterprets the tradition of Christian thought. For that reason, this Companion is singularly welcome bringing together a wide range of theologians both to outline and to assess the work of someone whom history will surely rank someday with Origen, John Calvin, and Karl Barth.

Pope Francis Sep 23 2022 An intimate and personal glimpse inside the mind of the leader of the Catholic Church, Pope Francis, through his own words... "I believe in the kindness of others, and that I must love them without fear."—Jorge Bergoglio, Pope Francis Jorge Bergoglio is the first Latin American pope, the first Jesuit pope, and the first to take the name Francis, after Saint Francis of Assisi, the thirteenth-century friar known for his charity and kindness. Here, in a series of extensive interviews conducted over two years, he reveals the very image of a humble priest and inspired teacher. This is a portrait of a man more interested in substance than style. In spontaneous, intimate terms, he talks about his childhood and family life, his first job, the discovery of his calling, and his early days in the seminary. He was a teacher of psychology and literature who

befriended writers such as Jorge Luis Borges. He cites Homer and Cervantes with ease, and names Babette's Feast as a favorite film and Marc Chagall as a favorite painter. He also takes on uncomfortable subjects: the declining number of priests and nuns; celibacy; the scandals that have rocked the Church; and his experience with the military dictatorship of Argentina. Through his own words, this book reveals a man who is thoughtful and witty, learned and introspective—one whose actions and words reflect his deeply rooted humility. Also included in this volume are Pope Francis's own writings and reflections—full of wisdom and inspiration.

Pope Francis: Life and Revolution Jan 28 2023 In Italy, they call him il Papa, which means "The Father." Until his unprecedented election, author and friend Elisabetta Piqué called him Padre Jorge. He may have changed his name to become Pope Francis, but it did not change their friendship. Since Jorge Mario Bergoglio became Pope Francis in 2013, countless books have been written to help the world understand this deeply complex yet simple servant of God. What sets *Pope Francis: Life and Revolution* apart from all other biographies of Pope Francis is the careful research and original investigation behind it, along with the fact that it is written by an internationally respected journalist—Elisabetta Piqué—who has remained close to the Pope since first meeting him back in 2001. Over 75 individuals were interviewed for *Pope Francis: Life and Revolution*, including lay people, priests, bishops, and cardinals who have known or worked with Francis at various times in his life. Insights from these people, as well as from friends and family members, allow us to see a profoundly personal side of the Pope. His humility and humanity, courage and conviction, and warmth and wisdom are revealed as Piqué shares little-known episodes from Francis's life. With a foreword by Cardinal Seán O'Malley, O.F.M. Cap., *Pope Francis: Life and Revolution* is the definitive resource and narrative of a man personally known by few and revered and respected by many. *Pope Francis: Life and Revolution* reveals a man consistent in his beliefs and actions. Tax Treaties: Building Bridges between Law and Economics Feb 02 2021 In this book experts from the field of economics take a different view of tax treaty issues than experts from the field of law. In order to encourage the much needed communication between these two groups, a cross-disciplinary conference was held to discuss selected tax treaty issues from both a legal and economic perspective. Twenty-five conference papers on eight topics were prepared by lawyers and economists. The papers on legal issues were presented and discussed by economists, and vice versa. The interdisciplinary focus of the conference not only allowed an exchange of knowledge between two groups who think differently about similar issues, but also made it possible to better grasp the impact of the thinking of one group on the areas of interest to the other group. The outcome of the conference is reflected in this book. By showing the legal and the economic approaches to an issue, this book improves the general understanding of the two disciplines and demonstrates how the decisions in one discipline may influence the other discipline and its concepts. Twenty-two contributions are included, written by the most distinguished academics, practitioners and representatives of several international tax administrations and both tax and economic institutions.
