Abdul Kalam became President of India in July 2002. He was a surprise choice. A scientist and not a politician, with an unusual hairstyle and an unassuming way of doing things, and no other agenda except that of seeing India become a developed and strong nation. How would such a man fit into the regal splendour of Rashtrapati Bhavan, and all the pomp and ceremony of a head of state? What followed, however, as P.M. Nair shows in The Kalam Effect, was a remarkable presidency that in the next five years transformed the way people looked at this office, and made Kalam popular in a way few politicians have been. Rashtrapati Bhavan became a much more accessible place, and his 'at homes' drew guests in the thousands. Not only that, the website he set up became a huge draw, and people wrote to him on e-mail or otherwise from across the country. His positive attitude infected all those who came in touch with him. While the reasons for his popularity will be analysed for a long time, Nair, who was his Secretary, suggests in this affectionate yet factual account some of the probable causes. One of these being that Kalam is just a very special human being. It was like any other day on the Anna University campus in Chennai. As I was returning to my room in the evening, the vice-chancellor, Prof. A. Kalanidhi, fell in step with me. Someone had been frantically trying to get in touch with me through the day, he said. Indeed, the phone was ringing when I entered the room. When I answered, a voice at the other end said, 'The prime minister wants to talk with you.' Some months earlier, I had left my post as Principal Scientific Adviser to the Government of India to return to teaching. Now, as I spoke to the PM, Atal Bihari Vajpayee, my life was set for an unexpected change. Turning Points takes up the incredible Kalam story from where Wings of Fire left off. It brings together details from his career and presidency that are not generally known as he speaks out for the first time on certain points of controversy. It is a continuing saga, above all, of a journey - individual and collective - that will take India to 2020 and beyond as a developed nation. Dr. Kalam is rare legendary personality.
